I'm back south again
Wouldn't you know it my friend
Waitin for you in this lonely bed
Tryin to clear this heavy head
Tryin to clear this heavy head

Holed up in Nisku
Really really miss you
Reachin out to kiss you
Reachin out to kiss you
Holed up in Nisku

Waitin for your flight to arrive
So happy that you're still alive
Talkin to that guy today
I really just wanna stay
I really just wanna stay

Feelin like death warmed over
Wishin I wasn't this sober
Lookin forward to holding you
Findin this truth to be new
Findin this truth to be new

Stealin away these blues
Stealin away these blues
