

No Regrets

Goin for it gonna make my big break
Learnin lots tryin not to make the same mistakes
Who are you to say that I'm no damn good
Breathin past my fears striving for it I stood

No regrets livin in the here and now
No regrets livin in the here and now
Say bye bye hey my my
Ya gotta fake it till you make it
Ya gotta believe sometimes before you see
Ya gotta keep trying otherwise you're dyin

Waitin to live I've got everything to give
Nothin to lose there's no shame in trying
Rejection's tough but dreams dyin there's just no words
If I said it didn't hurt I'd be lying

Livin my life giving thanks for everything
To see and hear feel taste and touch
Learnin to love letting go of the judge
Finding my reason for being here and now free

Say bye bye hey my my
Say hello to life
