

Warrior Bride

© 2014 Arlen Trent Rundvall

In forty two dad signed up for the war
What was he thinkin when he went that far
His orders read report for overseas
Hope he found a lady on his leave

As I look down
I think of this town
That's far far away
From this place and time
War is on I've not yet met my bride
War is on I've not yet met my bride
Wanna fight part of me wants to hide
Wanna fight part of me wants to hide

He did what he had to do
Against others tryin to kill him too
In forty four dad stepped into the breech
Liberation led to the sweet peace

Chorus

After the war he met his lovely bride
Only the pictures spoke of his warrior life
Though mom said he had nightmares
Never said a word just through those glares

As I look down
I think of this town
That's far far away
From this place and time
War is over and I'm with my bride
