

Christmas in the Psych Ward
© 2019 Arlen Trent Rundvall

Holy night where only Sue was screamin C G D
Relivin trauma fluorescent lights gleamin
Padded restraints really quite quaint
Compared to those old cages and chains
Peace on earth the nurses wage
Security backs this nativity stage
Smiley the Doctor doing rounds
Billin shekels, dollars, and pounds

It's Christmas in the Psych Ward Am Em
It's so near to you yet so far
No other place will have us
With all the merriment all the fuss

We have each other this rag tag band F G
Bring me up, bring me down
Brothers and sisters lend a hand
Please bring me back to town

Jingle, jingle the med cart goes
Careful else they increase your dose
Side effect medication please
It really helps with holiday glee
No belts or knives for presents
Safety checks what Santa sent
Janie secretly cheeked her pills
Saved them up they pumped her clean

Elves tied me securely to this bed
It beats those holes drilled in the head
Locked doors keep us from fleeing
Fred claims he's the divine being

Last Chorus (Substitute "us" for "me")

It's Christmas in the Psych Ward
New Year face the sanity board
